The Kirkpatrick Group, Inc.
Attn: Robert KirkPatrick, President
701 E. 15th Street, Suite 101
Plano, TX 75074

Dear Mr. Kirkpatrick:

Subj: APPROVAL OF DYNAGARD BLUE AND DYNAGARD E - MIL-PRF-18458C

A review of the test data presented to NAVSEA by the Kirkpatrick Group, Inc. (stamped by DCMA), shows that both greases submitted by The Kirkpatrick group (**Dynagard Blue and Dynagard E**) meet the qualification requirements of MIL-PRF-18458C. Dynagard Blue qualifies as a Type I grease and Dynagard E qualifies as a Type II grease.

Based on Navy Environmental Health Center's (NEHC) administrative health hazard assessments (AHHAs), enclosure (1) your **Dynagard Blue** and **Dynagard E**, can be safely used respecting limitations outlined in enclosure (1) of each of the NEHC letters. The safety precautions outlined in your Material Safety Data Sheets (MSDSs) for each product must be strictly followed and diligently applied. In addition, NEHC assessments of both greases indicate that both can be satisfactorily used provided proper personal protective equipment (PPE) is utilized by personnel handling and applying the grease.

Qualification is hereby granted to your **Dynagard Blue** and **Dynagard E** greases to be manufactured at Jetlube, Inc., located at 4849 Homestead Rd., Houston, TX 77028. Qualification is granted based on the conditions printed on the reverse side of this page. The Qualified Products Database (QPD) will be updated to add your products as shown on page two of this letter.

CONDITIONS UNDER WHICH QUALIFICATION IS GRANTED

The listing of your product on the Qualified Products List does not guarantee acceptance of the product in any future purchase nor does it constitute a waiver of the requirements of the specification or the provisions of any contract.

Any use of the listing for publicity, advertising, or sales will not state or imply that the product or the process is the only one of that type so qualified, or that the government in any way recommends or endorses the manufacturer's product in preference to other qualified products. (Violation cause for removal from the list.)

Listing applies only to products produced in, or process used in, the plant specified in the letter of notification. The listing is effective at 8:00 a.m. (Local time of the qualifying activity) as of the date of the letter of notification.

Listing applies to amendments or revisions of the specification, unless otherwise notified.

Listing applies only to products or processes identical to those qualified (or to products defined in the family of products granted qualification coverage). The qualifying activity must be advised in advance of any intended change to a qualified product or process and must be provided with complete description of the change. Failure to notify the qualifying activity of any change is cause for removal from the listing regardless of the extent of the change.
